

Safety Reminders for Everyday

Our staff are here to educate and protect your children. Please follow our school security measures:

- Please do not enter the building during arrival or dismissal unless you are going to the main office.
- Make sure you have your ID when you visit or pick up at your child's school.
- Be prepared to display your ID to our security camera or present to a staff member when requested.
- Make sure you are individually buzzed in — do not hold the door for anyone else.
- Young students may only be released to individuals listed on their Genesis student account or a parent's handwritten note. Anyone picking up your child should be prepared to present ID.
- Inform school staff about student safety concerns raised by your child or on social media.
- Know your school's lockdown and safety procedures and talk to your child about their importance.

SAFETY... TODAY AND TOMORROW

PISCATAWAY
TOWNSHIP SCHOOLS

Security is a Shared Priority

Together, with parents, teachers and the Board of Education, our school district is always examining ways to make our schools as safe as we can. Here are some of our existing school security procedures.

- Teacher/staff/principal emphasis on building relationships with students and assuring that each child has a trusted adult at school. These topics are regularly addressed in faculty meetings.
- Teachers are stationed at the main entrances, outside classrooms, and at hallway posts at all schools during change of classes and arrival and dismissal.
- All district staff and high school students wear ID badges. Staff in other buildings are expected to know students by name.

- Lesson plans for substitutes include emergency procedures specific to that classroom.
- Students and staff in all schools are regularly reminded not to let visitors enter but to direct them to main entrances.
- A no-nonsense approach by school administration towards weapons, drug infractions, fighting, etc. Age-appropriate disciplinary codes in each school specify consequences that range from counseling and out-of-school suspension to expulsion.
- Constant consultation, with the Piscataway Police Department to share information about incidents and potential problems.
- Over 600 internal and external security cameras are located inside and outside all district schools, and in the main hallways.
- All school perimeter doors have magnetic locking systems. There is external video surveillance in all schools, and visitors must identify themselves and be buzzed in by office staff. Emergency key fob shut off at all buildings – ensuring no one can enter a building except for police.
- Emergency evacuation plans, shelter in place, and lockdown procedures were developed with the Piscataway Police Department and Middlesex County Prosecutor's Office. Students and staff drill three times a month for crises.

- School communication systems have instant access to the Piscataway Police Department.
- Additionally, there is a full-time police officer at Piscataway High School and a fulltime police officer for our middle schools. Eleven security guards at PHS monitor hallways, cafeterias, exits and entrances, and school events.

The Board of Education and Administration, in consultation with the Piscataway Police Department, continues to identify ways to make our schools safer and stronger. This is our first priority; additional information will be forthcoming.
